

ECO CAF® Mini 3 – Gallon Compressed Air Foam (CAF) Portable Fire Extinguisher Model No. 10031

ECO CAF® 3 Compressed Air Foam System is designed to meet the budgetary restraints of both paid and volunteer fire departments and industry nationwide. ECO CAF® 3 uses no outside pressure vessel to operate 100 - 150 psi from a standard air compressor. ECO CAF® 3 dispenses approximately 30 gallons of finished foam. Light weight and compact, the ECO CAF® 3 can use any style of foam including Class A, AFFF and AR foams. In a time when everyone is feeling the pinch, ECO CAF® is leading the way with effective, economical solutions for today's firefighting needs.

PERFORMANCE

Pressure Vessel Capacity: **3 U.S. Gallons**
Finished Foam Capacity: **Up to 30 U.S. Gallons**
Throw Distance: **Up to 40 Ft.**
Discharge Duration: **Up to 30 Seconds**
Foam Expansion: **20 to 1 Expansion Ratio**

SPECIFICATIONS

Width: **9 ½"** Height: **28"** Diameter: **10"**
Weight Empty: **9.5 lbs.**
Weight Full: **20 lbs.**
Operating Pressure: **100 – 150 psi.**
Fill Diameter: **1 ¼"**
Discharge Hose: **3/8" x 20" Hard Rubber Hand Held Line**
Discharge Tip: **Plastic Straight Tip**
Standard Nozzle: **Scissor Valve Configuration Plated Brass**
Expellant Type: **Compressed Air**
Foam Compatibility: **Class A, AFFF & AR Foams**
